

## NEW IN STOCK

### ANNOUNCING THE ALL NEW PEDDERS DOT 3 AND SUPER DOT 4 BRAKE FLUIDS

#### PEDDERS DOT 3 BRAKE FLUID - PBF05D3

Pedders DOT 3 Brake Fluid is a premium, high boiling point polyglycol-based fluid formulated for use in a wide range of brake and clutch applications. It contains corrosion and oxidation inhibitors that protect rubber and metallic components present in the vehicle's brake system. It is designed to meet and exceed all the DOT 3 requirements for motor vehicle brake fluids. Suitable for passenger vehicles, motorcycles, light and heavy-duty vehicles and equipment where a non-petroleum based DOT 3 (mining, construction and agricultural application) is required.

- High heat stability.
- Excellent protection of metal and rubber brake system parts from corrosion and against wear.
- Lubrication of the moving parts to prolong service life.
- High boiling point prevents vapour lock brake failure
- Requirements for US FMVSS 116 DOT 3, SAE J 1703 and ISO 4925 Specifications.
- Compatibility with other DOT 4 approved brake fluids.

#### PEDDERS SUPER DOT 4 BRAKE FLUID - PBF05D4

Pedders SUPER DOT 4 Brake Fluid is a premium, high boiling point fluid formulated for use in a wide range of brake and clutch applications. These fluids contain corrosion and oxidation inhibitors that protect rubber and metallic components present in the vehicle's brake system. It is designed to meet and exceed all the DOT 4 and DOT 3 requirements for motor vehicle brake fluids. Suitable for passenger vehicles, motorcycles, light and heavy-duty vehicles and equipment where a non-petroleum based DOT 4 (mining, construction and agricultural application) is required.

- High heat stability.
- Higher performance compared to regular DOT 4 fluids due to higher boiling point.
- Excellent protection of metal and rubber brake system parts from corrosion and against wear.
- Lubrication of the moving parts to prolong service life.
- High boiling point prevents vapour lock brake failure.
- Requirements for US FMVSS 116 DOT 3, SAE J 1703 and ISO 4925 (Class 3) Specifications.
- Compatibility with other DOT 4 and SUPER DOT 4 approved brake Fluids.
